Fluid Connectors (WA) Pty. Limited. P.O. Box 180, Innaloo, Perth, Australia WA 6017 ph +61 8 9244 8266 fax +61 8 9244 8277

13th February 2017

To whom it may concern,

May this letter serve to advise that all hydraulic parts manufactured and supplied by Fluid Connectors (WA) Pty Ltd and Fluid Connectors (NZ) Ltd, meet or exceed the relevant standards/specifications to that product.

These include but are not limited to:

JIC and NPT fittings to SAE J514
ORFS fittings to SAE J1453
BSP fittings to ISO 7.1 and BS:5200
BSP Inverted fittings to JIS B 8363
Metric Fittings to DIN 2353 and ISO 8434-1
Flange fittings to SAE J518

All products not produced from ISO9001 accredited manufacturers undergo comprehensive inspection at all stages of manufacture with regularly calibrated gauges and measuring equipment.

After manufacture all parts are subjected to in-house inspection before being made available for sale, again, using a comprehensive range of gauges and measuring equipment specifically suitable for hydraulic products.

Any further queries can be directed to the writer.

Yours faithfully,

Kevin Bredeveldt
Technical Manager
